The General Manager and Members of  
the Buffalo Sewer Authority Board  
Buffalo Sewer Authority  
10<sup>th</sup> Floor City Hall  
Buffalo, New York 14202-3378

The General Manager and Members of the Buffalo Sewer Authority Board:

We have audited the financial statements of the Buffalo Sewer Authority (the “Authority”) as of and for the year ended June 30, 2018, and have issued our report thereon dated September 26, 2018. Professional standards require that we advise you of the following matters relating to our audit.

**Our Responsibility in Relation to the Financial Statement Audit**

As communicated in our engagement letter dated June 5, 2018, our responsibility, as described by professional standards, is to form and express an opinion about whether the financial statements that have been prepared by management with your oversight are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America. Our audit of the financial statements does not relieve you or management of your respective responsibilities.

Our responsibility, as prescribed by professional standards, is to plan and perform our audit to obtain reasonable, rather than absolute, assurance about whether the financial statements are free of material misstatement. An audit of financial statements includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity’s internal control over financial reporting. Accordingly, as part of our audit, we considered the internal control of the Authority solely for the purpose of determining our audit procedures and not to provide any assurance concerning such internal control.

We are also responsible for communicating significant matters related to the audit that are, in our professional judgment, relevant to your responsibilities in overseeing the financial reporting process. However, we are not required to design procedures for the purpose of identifying other matters to communicate to you.

We have provided our comments regarding other matters in a separate letter to you dated September 26, 2018.

## **Planned Scope and Timing of the Audit**

We conducted our audit consistent with the planned scope and timing we previously communicated to you.

## **Compliance with All Ethics Requirements Regarding Independence**

The engagement team, others in our firm, as appropriate, and our firm have complied with all relevant ethical requirements regarding independence.

## **Qualitative Aspects of the Entity's Significant Accounting Practices**

### *Significant Accounting Policies*

Management has the responsibility to select and use appropriate accounting policies. A summary of the significant accounting policies adopted by the Authority is included in Note 1 to the financial statements. Except for the matters discussed below, there have been no initial selection of accounting policies and no changes in significant accounting policies or their application during the year ended June 30, 2018.

During the year ended June 30, 2018, the Authority implemented GASB Statements No. 81, *Irrevocable Split-Interest Agreements*; No. 82, *Pension Issues; an amendment of GASB Statements No. 67, No. 68, and No. 73*; No. 85, *Omnibus 2017*; and No. 86, *Certain Debt Extinguishment Issues*, effective for the year ended June 30, 2018. GASB Statement No. 81 improves accounting and financial reporting for irrevocable split-interest agreements by providing recognition and measurement guidance for situations in which a government is a beneficiary of the agreement. GASB Statement No. 82 addresses certain issues that have been raised with respect to Statements No. 67, *Financial Reporting for Pension Plans*, No. 68, *Accounting and Financial Reporting for Pensions*, and No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68*. GASB Statement No. 85 addresses practice issues that have been identified during implementation and application of certain GASB statements. GASB Statement No. 86 improves consistency in accounting and financial reporting for in-substance defeasance of debt by providing guidance for transactions in which cash and other monetary assets acquired with only existing resources—resources other than the proceeds of refunding debt—are placed in an irrevocable trust for the sole purpose of extinguishing debt. This Statement also improves accounting and financial reporting for prepaid insurance on debt that is extinguished and notes to financial statements for debt that is defeased in substance. Statements No. 81, 82, 85, and 86 did not have a material impact on the Authority's financial position or results from operations.

### *Significant Accounting Estimates*

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's current judgments. Those judgments are normally based on knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ markedly from management's current judgments.

The most sensitive estimates affecting the financial statements at June 30, 2018 are the allowance for receivables, the liabilities for compensated absences, judgments and claims, other post-employment benefits (“OPEB”) obligation, and the net pension liability.

Management's estimates of the allowance for doubtful accounts, the liabilities for compensated absences, judgments and claims, OPEB obligation and the net pension liability are based on available information regarding eligibility, leave balances accrued, current compensation rates, past trends, estimates of third party specialists, and actuarial valuations. We evaluated the key factors and assumptions used to develop the estimates for the allowance for receivables the liabilities for compensated absences, OPEB obligation and the net pension liability and determined that they are reasonable in relation to the financial statements taken as a whole and in relation to the applicable opinion units.

### **Significant Difficulties Encountered during the Audit**

We encountered no significant difficulties in dealing with management relating to the performance of the audit.

### **Uncorrected and Corrected Misstatements**

For purposes of this communication, professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that we believe are trivial, and communicate them to the appropriate level of management. Further, professional standards require us to also communicate the effect of uncorrected misstatements related to prior periods on the relevant classes of transactions, account balances or disclosures, and the financial statements as a whole and each applicable opinion unit. Management has corrected all identified material misstatements.

In addition, professional standards require us to communicate to you all material, corrected misstatements that were brought to the attention of management as a result of our audit procedures. The proposed journal entries for the year ended June 30, 2018, including those material misstatements, either individually or in the aggregate, to the financial statements taken as a whole, that we identified as a result of our audit procedures and were brought to the attention of, and corrected by management, are attached to the management representation letter dated September 26, 2018 as Exhibit I (copy attached).

### **Disagreements with Management**

For purposes of this letter, professional standards define a disagreement with management as a matter, whether or not resolved to our satisfaction, concerning a financial accounting, reporting, or auditing matter, which could be significant to the Authority’s financial statements or the auditor’s report. No such disagreements arose during the course of the audit.

### **Representations Requested from Management**

We have requested certain representations from management, which are included in the attached letter dated September 26, 2018.

### **Management's Consultations with Other Accountants**

In some cases, management may decide to consult with other accountants about auditing and accounting matters. Management informed us that, and to our knowledge, there were no consultations with other accountants regarding auditing and accounting matters.

### **Other Significant Matters, Findings or Issues**

In the normal course of our professional association with the Authority, we generally discuss a variety of matters, including the application of accounting principles and auditing standards, operating and regulatory conditions affecting the entity, and operational plans and strategies that may affect the risks of material misstatement. None of the matters discussed resulted in a condition to our retention as the Authority's auditors.

\*\*\*\*\*

This report is intended solely for the information and use of the Board Members and management of the Authority and is not intended to be and should not be used by anyone other than these specified parties.

## Other Specific Representations

- The Authority is responsible for determining and maintaining the adequacy of the allowance for doubtful notes, loans, interfund receivables and accounts receivable, as well as estimates used to determine such amounts. Management believes the allowances are adequate to absorb currently estimated bad debts in account balances.
- We have received and approve the various adjusting journal entries that were proposed by you for recording our books and recorded and reflected in the financial statements. We have posted these adjusting journal entries to our records. The proposed adjusting journal entries are described in Exhibit I.
- We agree with the work of specialists in evaluating the workers' compensation, other post-employment benefits obligation, and net pension liability and have adequately considered the qualifications of the specialists in determining the amounts and disclosures used in the financial statements and underlying accounting records. We did not give or cause any instructions to be given to the specialists in respect to the values or amounts derived in an attempt to bias their work, and we are not otherwise aware of any matters that have had an impact on the independence or objectivity of the specialists. We believe that the actuarial assumptions and methods used to measure workers' compensation, other postemployment benefits and the net pension liability obligations and costs are appropriate in the circumstances.
- We have no intention of terminating our pension plan, or taking any other action that could result in an effective termination or reportable event for the plan. We are not aware of any occurrences that could result in the termination of our pension plan to which we contribute. We believe that the actuarial assumptions and methods used to measure pension liabilities and costs for financial accounting purposes are appropriate in the circumstances.
- We do not plan to make frequent amendments to our pension or other post-employment benefit plans.
- The Authority has had a committee analyze, justify and provide recommendations relating to all sole source and professional services contracts to the Board for approval.
- Management has reviewed the complete listing of sole source contractors and verified that the contractors contained within the listing meet the criteria as a sole source provider as outlined in General Municipal Law.
- The Authority is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; injuries to employees; and natural disasters. The Authority currently reports all of its risk management activities in its General Fund. The Authority assumes the liability for most risk including, but not limited to, workers' compensation and general liability. The Authority maintains insurance for claims in excess of \$250,000. Management estimates the liability for these claims and judgments to be \$1,683,693 of which \$84,185 is estimated to be payable within one year. This estimate is based on a June 30, 2018 actuarial valuation.

- On March 18, 2014, the Authority's Long Term Control Plan to reduce the amount of sewage and storm-water run-off that flow from the City's combined sewer system was approved by the U.S. Environmental Protection Agency and the New York State Department of Environmental Conservation. The Authority has committed to investing \$380 million on these projects over 20 years. The Authority plans to fund these projects with committed fund balance and long-term financing, and therefore, will record a liability when such financing is obtained.
- Management has committed \$5,000,000 of fund balance for loss contingencies.
- The Authority has determined that fund balance committed for capital projects within the General Fund and General Projects Fund of \$16,025,685 and \$29,694,631, respectively, is composed primarily of designated cash and should be classified as such. Additionally, based on its current five-year capital plan, the Authority anticipates future capital appropriations to approximate \$297 million.
- The Authority considers encumbrances to be significant for amounts that are encumbered in excess of \$400,000.
- The Authority has determined that the ending balance in construction in progress represents ongoing capital projects that have not yet been completed, and as such do not represent depreciable assets.
- In addition to audit services, Drescher & Malecki LLP has assisted the Authority in compiling the Authority's financial statements for the year ended June 30, 2018. In conjunction with the compilation of the financial statements the Authority has performed the following functions:
