

**Procurement Forecast for Upcoming Bids, RFP, and RFQ**

Updated May 2026

Project Information		Procurement Information			
Project Name	Scope of Work / Description	Procurement Type RFP/RFQ (Professional Services) Bid (Construction)	Anticipated Release Date	Contract Goals for DBE, M/WBE, or SDVOB?*	Cost Range (if available)
Sewer Patrol Point (SPP) Projects	These projects involve raising and/or replacement of existing overflow weirs and installation of larger diameter underflow pipe, diversion structures, vortex style drop shafts and manholes. Construction for these projects, under a single contract, is anticipated to begin in 2026 with an estimated duration of approximately two years. The scope of these projects includes SPP modifications at the following sites:  - <b>SPP337 Modification:</b> Intersection of Colorado Ave, and Scajaquada St.	Bid	Q1 2026	M/WBE, SDVOB	\$10M - \$15M
Kelly 'F' Fuhrman St Pump Station Rehabilitation	Remove Existing Non-Operational Dry Well System. Install New Dry Well Pump System Including: Pump System, Fats, Oil & Grease System, HVAC & Electrical Systems. Improve Layout to reduce operations personnel's safety and maintenance concerns	Bid	Q3 2026	M/WBE, SDVOB	\$1M - \$2.5M
Professional Engineering Services Term Agreement	Buffalo Sewer is seeking qualifications from professional engineering consulting teams to provide services for up to a three (3) year term agreement for various capital projects, and/or critical engineering projects throughout the City of Buffalo as well as at the wastewater treatment facility (WWTF). Each term agreement shall be in the amount of \$250,000.00 for this period.	RFQ	Q3 2026	M/WBE	\$250,000 awarded up to to six (6) consultants each
Bird Island WWTF Phase III.A: Secondary System Expansion	Upgrades of the existing secondary treatment system, includes: improving flow into existing clarifiers; adding two new 40 MGD final clarifiers; installing an additional chlorine contact tank.	Bid	Q4 2026	M/WBE, SDVOB	\$75M - \$100M
Bird Island WWTF Phase II.B: Primary Treatment Renovation	Construction of 160 MGD High-Rate Disinfection Pump Station and Chlorine Contact Tank. Installation of large influent and effluent piping. Structural repairs (in-land) of Outfall 001.	Bid	Q4 2026	M/WBE, SDVOB	\$100M - \$120M
Waste Heat Recovery Boilers (WHRB) Rehabilitation @ Bird Island WWTF	1) Steam Header Repairs: Replacement/repair of damaged insulation, leaking steam traps and degraded pipes; general improvements in steam piping and steam traps.  2) Auxiliary Boiler #2 Burner Upgrades: new burner and burner control system, and natural gas and digester gas operation system.  3) Condensate drain system improvements.  4) Chiller System enhancements.	Bid	2026	M/WBE, SDVOB	\$2M - \$4M
RFQ for Final Design Services for Various Collection System Capital Projects	The purpose of the LTCP, now known as the Queen City Clean Waters (QCCW) Initiative, is to reduce combined sewer overflow (CSO) activations within the existing collection system and to alleviate influent flows to the WWTF during wet weather events.  BSA is seeking to advance preliminary designs to the final design phase for its planned collection system capital projects in accordance with the LTCP schedule. The purpose of this request for qualifications (RFQ) is to seek qualified consultants to provide final design services for various collection system capital projects. The design of various collection system projects include: weir modification, offline storage, in-line storage, and other projects to control wet weather flows and convey wastewater to the Bird Island WWTF. At this time, BSA anticipates that separate design teams will be assigned for each project.	RFQ	Q1-Q2 2027	M/WBE, SDVOB	TBD; Several pre-qualified firms to be identified

Green Infrastructure Installation (see projects below)	Construction of green stormwater infrastructure at various locations in City of Buffalo in an effort to reduce combined sewer overflows (CSO). Part of RainCheck 2.0 program.	Bid	2026-2027 (see below)		
Park Package 1	Installation of an underground, stormwater detention area at Hennepin Park and the separation of stormwater and sanitary sewer piping contributing to the stormwater management practice. Site improvements will also include the replacement of existing, disturbed features in kind, including curb ramps, pavement, curbing, sidewalk, signage, the basketball court pavement, installation of an underdrain from the playground area, and any disturbed vegetated areas.	Bid	Q1 2026	M/WBE, SDVOB	\$5M - \$10M
Park Package 2	Installation of 13 green infrastructure systems at four Buffalo Parks including Martin Luther King Park, Genesee Gateway Triangle, Lincoln Park, and Eddie Dawson Park including cc7 stormwater tree trenches along the public right-of-way, 2 rain gardens in underutilized green areas, 2 stormwater planters, 2 underground storage systems, as well as the additional planting of trees. Site improvements will also include the replacement of existing, disturbed features in kind, including curb ramps, curbing, sidewalk, and disturbed vegetated areas.	Bid	Q4 2026	M/WBE, SDVOB	\$1M - \$2M
Park Package 3	Installation of 8 green infrastructure systems at four Buffalo Parks including Schiller Park, Glenny Park, Hank Nowak Park, and Mary Jean Sloan Park including underground storage and stormwater tree trenches within park property and along the public right-of-way. Site improvements will also include the replacement of existing, disturbed features in kind, including basketball courts, parking areas, curb ramps, curbing, sidewalk, and disturbed vegetated areas.	Bid	Q4 2026	M/WBE, SDVOB	\$1M - \$2M
Buffalo Municipal Housing Authority	Installation of green infrastructure practices at two Buffalo Municipal Housing Authority sites (Ferry Grider and Langfield/Kenfield) including underground storage within parking areas, stormwater tree trenches along the public right-of-way, and the planting of additional trees. Site improvements will also include the replacement of existing, disturbed features in kind, including curb ramps, curbing, sidewalk, and disturbed vegetated areas	Bid	Q1 2027	M/WBE	\$10M - \$15M
Buffalo Public Schools	The Buffalo Public Schools package consists of 16 school sites with a combination of both on-site work and work within the surrounding public right-of-way, including stormwater tree trenches, infiltration trenches, underground storage systems, stormwater planters, and bioretention areas.	Bid	Q4 2026	M/WBE	\$15M - \$20M
ROW Package 1	Right-of-Way Package 1 consists of 22 green infrastructure systems, all of which are stormwater tree/infiltration trenches.	Bid	Q4 2026	M/WBE, SDVOB	\$3M - \$5M
ROW Package 2	Right-of-Way Package 2 consists of 17 green infrastructure systems, including 16 stormwater tree trenches and 1 rain garden.	Bid	Q4 2026	M/WBE, SDVOB	\$3M - \$5M
ROW Package 3	Right-of-Way Package 3 consists of 58 green infrastructure systems- all of which are stormwater tree trenches.	Bid	Q3 2026	M/WBE	\$5M - \$10M
ROW Package 4	Right-of-Way Package 4 consists of 26 green infrastructure systems, all of which are stormwater trenches.	Bid	Q4 2026	M/WBE	\$3M - \$5M
ROW Package 5	Right-of-Way Package 5 consists of 43 green infrastructure systems- all of which are stormwater tree trenches.	Bid	Q4 2026	M/WBE	\$3M - \$5M
ROW Package 6	Right-of-Way Package 6 consists of 48 green infrastructure systems, including 43 stormwater tree trenches and 5 stormwater planters.	Bid	Q4 2026	M/WBE	\$3M - \$5M
ROW Package 7	Right-of-Way Package 7 consists of 43 green infrastructure systems, all of which are stormwater tree trenches.	Bid	Q1 2027	M/WBE	\$5M - \$10M
ROW Package 8	Right-of-Way Package 8 consists of 28 green infrastructure systems – all of which are stormwater tree trenches.	Bid	Q4 2026	M/WBE	\$5M - \$10M
ROW Package 9	Right-of-Way Package 9 consists of 26 green infrastructure systems, all of which are stormwater tree trenches.	Bid	Q1 2027	M/WBE	\$3M - \$5M

\* In addition to relationships with long-standing and traditional businesses; Buffalo Sewer encourages meaningful inclusion and opportunity creation for Disadvantaged/Minority/Women-Owned Business Enterprise (D/MBE/WBE) and Service-Disabled Veteran Owned Business (SDVOB) firms, including firms who are new to working with Buffalo Sewer and/or the City of Buffalo.
